Patient Centered Electronic Fetal Heart Monitoring
Advocate South Suburban Hospital

Program Date: The Fourth Tuesday of the Month from 8am-12pm

Program Purpose:
- An educational opportunity to explore current concepts related to Electronic Fetal Heart Monitoring and Fetal surveillance during the Intrapartum period

Objectives:
- Define fetal heart patterns that indicate fetal well being.
- Describe uterine activity and interventions to support optimal fetal oxygenation.
- Review maternal physiology as it relates to EFM.
- Demonstrate effective communication related to the electronic fetal monitoring tracing and fetal well being to multidisciplinary providers, and patients

Continuing Nursing Education Hours:
- 4 contact hours will be awarded upon successful completion of this program.

Criteria for Successful Completion:
- Attendance of the entire event.
- Evaluations will be sent via email after the event.
- Participants will have 28 days to complete the evaluation.
- Upon submission of the evaluation, the participant will receive their certificate.

There is no Commercial Support or Vendor Support for this event

Conflict of Interest Disclosure:
- This educational activity’s planners and presenters have indicated that they have no bias or conflict of interest.
